## Summary

I am a web developer having knowledge in frontend development and some exposure to back-end development. I design and develop web applications using the latest technologies to deliver the product with quality code.

## Work Experience

### Thermo Fisher

Nov 2021 - Feb 2022

#### Cleanroom Technician

- Cleaned Equipment and workplace proactively and per mandated clean room protocol and monitored non-sterile risks to sterile environment.
- Maintained sterile clean room environment by wearing clean room garments and conforming to established Good Manufacturing Process practices.
- Worked closely with project teams and group leadership to develop new materials for divers uses.
- Kept cleanroom free of contaminants to avoid damaging sensitive components.

### Instacart

Jan 2020 - present

#### Gig worker

- Followed company, safety and performance requirements at all time.
- Shop for customers.
- Give the customer the best products they have in the store.
- Follow instructions the customer gives me.

### FedEx

Jun 2020 - Jan 2021

#### Warehouse Associate

- On the line sorting the boxes.
- Packing the freight properly.
- Pick up 35-75 pounds of material and gently put them where they need to be.

### Little Treasures Learning Center

Oct 2018 - Dec 2019

#### Teacher

- Developed and implemented interesting and interactive learning media to increase student understanding of course materials.
- Created and implemented developmentally-appropriate curriculum which addressed individual learning styles
- Taught 1-4 year olds to diverse class of 13 students.
- Worked with fellow teachers to develop cohesive educational plans and improve support for diverse students.
- Set and communicated respect and personal responsibility rules for classroom.
- Prepared unit and lesson plans for courses of study, following curriculum guidelines and common core standards.

## Career Objective

Eager to expand my skill set through external trainings to help boost all major front desk KPIs. Hoping to boost organizational skills to help Corp introduce time-saving schemes for all executives.

## Technical expertise

Html5

CSS

## Skills / Exposure

Data Structures

Inventory stocking

Equipment operation
